

# Dental Directory

## Treating Vulnerable Elderly Patients

\*This Resource Book is provided for information purposes only and does not guarantee treatment. Please contact the dentists and dental hygienists directly regarding method of payment. This is not a complete list of dentists and hygienists willing to treat vulnerable elderly patients. This is a resource book of those dentists and hygienists who have agreed to be listed. Listing of a dentist or hygienist in this directory no way implies that Michigan Department of Community Health (MDCH) or the Coalition for Oral Health for the Aging (COHA) endorses the services of treatment by any dentist or hygienist on their staff. MDCH and COHA would like to thank Delta Dental for providing the funding for acquiring the contacts for this directory.

This directory was created to connect patients to existing resources. Below is a list of services provided to vulnerable elderly patients identified by the dental professionals as listed.

In this directory vulnerable elderly patients are defined as patients over the age of 65 that have any or all of the following: limited mobility, limited resources, or complex health status.

Below are listed possibilities for services offered:

### DENTAL SERVICES

Diagnostic and Preventive  
Restorative  
Esthetic Reconstruction  
Fixed Prosthodontics  
Removable Prosthodontics  
Implants  
Oral Surgery  
Periodontal  
Emergency Services
